

MEETING ONLINE

"Foreign Direct Investment in Poland"

On behalf of **the American Chamber of Commerce in Poland (AmCham)** and the International Group of Chambers of Commerce in Poland (IGCC), we are pleased to invite you to participate in an **online meeting** devoted to the role of foreign investors in the Polish economy. Our discussion's starting point will be the latest IGCC report entitled "**Foreign Direct Investment in Poland.**"

The meeting will be held on **Wednesday, January 13, 10:00-11:00 a.m. via the Webex platform.**

Foreign investors were both beneficiaries of the Polish success story and its key contributors. According to this latest report prepared by AmCham Poland for IGCC, there are almost 25,000 companies with foreign capital in Poland, employing two million people, thus creating 15% of private-sector jobs. Poland has been attracting foreign investors for three decades and continues to be an attractive destination, even in these uncertain times. This meeting will be an opportunity to discuss the future direction of cooperation and investment in Poland, which results in Poland's economic development and its ongoing international competitiveness. Our panelists will be top investors from Germany, the US, France, and the UK. The discussion, moderated by AmCham Chairman Tony Housh, will focus on the role of FDI in Poland's post-Covid-19 economic recovery plan.
