WEBINAR

18 November 2025

Duration: 10:00 – 11:30

How to effectively perform the construction contract – dispute avoidance in Poland

The webinar is addressed to construction contractors and all entities and persons interested in effectively managing the risk of legal disputes, including in particular: representatives of companies from the construction and infrastructure sectors, companies that serve as contractors, management board members, execution and production directors, in-house lawyers, contract managers, site managers, technical directors.

SIGN UP

In this webinar, we will address key issues related to the effective execution of construction projects while minimizing litigation risks. We'll focus on the importance of keeping thorough records of a contract performance as a basis for protecting the interests of the parties and pursuing claims. Another area that we'll cover will be effective negotiation strategies and rules for drawing up claim documentation. Additionally, we'll share good practices in the performance of construction contracts that help reduce the risk of conflicts and facilitate cooperation between the parties.

Agenda:

- how to effectively manage the risk of litigation – you will learn practical tools for verifying and assessing risks,
- why thorough documentation is your best ally – you will learn how proper document management affects the performance of a contract and its final settlement in the event of a potential dispute,
- how to conduct effective negotiations – you will discover proven strategies for securing your interests, including the preparation of claim documentation,
- how to perform a construction contract to avoid unnecessary litigation – you will learn good practices that will reduce the risk of disputes and facilitate smooth project settlement.

Webinar speakers:

Maria Łabno
Adwokat (Attorney-at-law)
Senior Associate

LinkedIn : 

maria.labno@jdp-law.pl

Attorney-at-law in the Litigation and Arbitration Team, the Infrastructure Team. She specialises in court and arbitration proceedings, in particular regarding construction and infrastructure projects (primarily for the energy, road and tram sections) and production. She assists clients in developing strategies to resolve disputes amicably, including in negotiating settlement agreements; she also advises on post-arbitration and enforcement proceedings. Her extensive experience includes day-to-day legal advice on contract performance, including infrastructure projects and contracts awarded in the public procurement regime. Her clients include both investors and contractors. She effectively handles criminal proceedings and advises clients on managing crisis situations.

Hanna Puchała
Adwokat (Attorney-at-law)
Associate

LinkedIn : 

hanna.puchala@jdp-law.pl

Attorney-at-law in the Litigation and Arbitration Team, the Infrastructure Team. She specialises in proceedings before common courts, with a particular focus on infrastructure and construction disputes. She advises on claiming receivables in court and enforcement proceedings. Her experience also includes civil and commercial (corporate) disputes and white collar crimes.

JDP Law Firm

Is a leader in the sector of legal advice to and representation of contractors, private investors and subcontractors regarding complex infrastructure projects. JDP experts advise on complex projects across the energy, railway, road, bridge, gas, public and industrial facilities projects. We have been handling several dozen landmark court and arbitration proceedings regarding construction or infrastructure projects, shaping thereby Polish case-law. JDP is regularly recognised in international legal rankings: Chambers Global, Chambers Europe and Legal 500 in the Construction (Band 1); Public Procurement; Dispute Resolution; Arbitration and Commercial and Corporate & M&A categories.
